

INSPIRATION GUIDE

SPANISH WALLTILES

Manual Verde Cobre

MADE WITH LOVE

Each tile is shaped and glazed by hand in Spain. The clay tiles come in different sizes and shapes and are finished with craquelé or other irregularities. This is what makes the Spanish tile so unique and lively!

These Spanish tiles can only be placed inside and against the wall. We recommend that tiles with craquelé are treated if they are placed in a shower.

GLAZE

CLAY

FOR A LIFETIME

Whether you go for an entire wall or for a small area, your interior will come to life with these beautiful tiles. The "Manual" worked clay tiles have a handshape and are therefore bumpy and rounded. The light distorts and plays with the tile. The tiles are available in all colours, from deep dark to the lightest white.

CRAQUELE

Spanish tiles can contain craquelé. These are small hairline cracks in the glaze and are part of the Spanish tile. Sometimes the cracks only appear when the tile is placed. Read on Designtegels.nl what to look out for when ordering a tile with Craquelé.

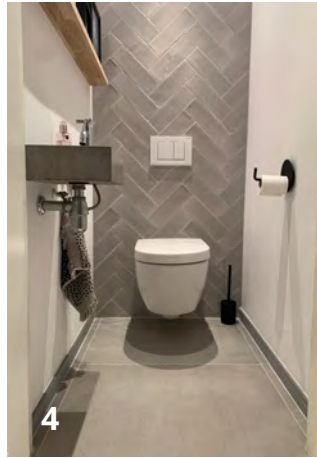

COLOURFUL EYE-CATCHER

TIP 1: CRAQUELÉ, WHAT IS IT?

Do you want to know more about craquelé? Read our blog where we explain what it is and what to consider when installing and treating Spanish tile.

<https://www.designtegels.nl/en/blog/what-you-need-to-know-about-craquele>

TIP 2: ORDER A SAMPLE

Through our website, you can simply order a sample of a tile. You can have this delivered to your home or pick it up in one of our showrooms. Match it with the rest of your colour palette to make sure it is the right colour and choice.
