INSPIRATION GUIDE

TERRAZZO

MADE WITH LOVE

Terrazzo is made with small grains of marble and stone that are pressed and polished to form a tile. The different coloured stones are collected from all over the world and the concrete is given a colour to match.

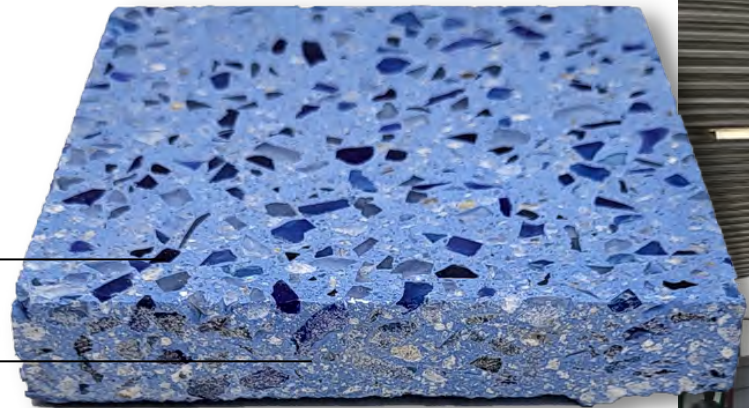

Each tile receives its own mix of pebbles and therefore each delivery may differ slightly from the others.

FOR A LIFETIME

In the factory in Portugal, the Terrazzo tile is given a layer of impregnation so that it does not need to be treated after installation. It's so easy! Please be aware of the fact that acids and other aggressive substances can affect the (natural) stone colours. Treat the tile with natural products and it will only become lovelier!

SUITABLE FOR

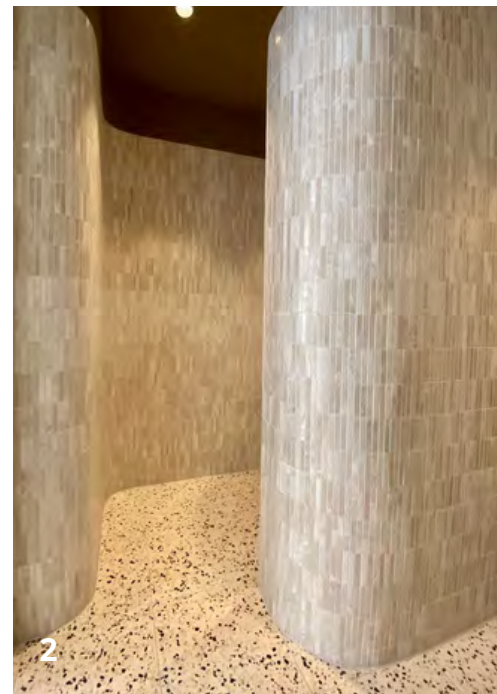

The Terrazzo tile is suitable for indoors and outdoors and can be placed on the wall and on the floor.

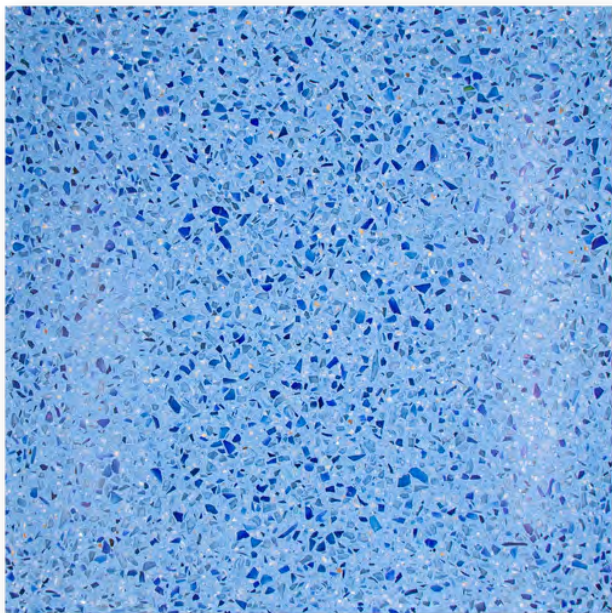

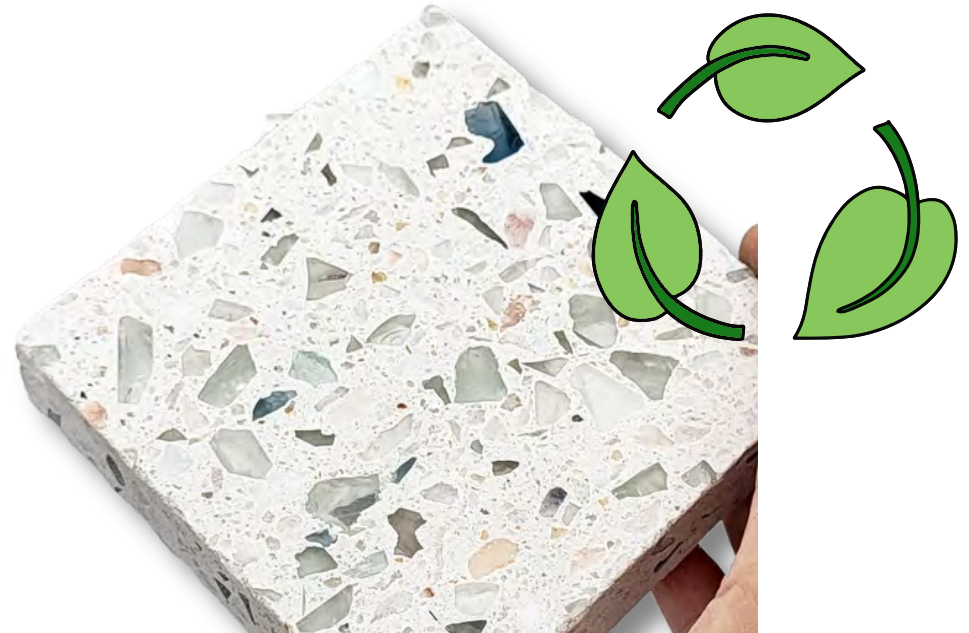

A REAL EYE-OPENER

Terrazzo is hip and trending!
The standard colours have made way for the most unusual variations of stones and shades! Which style are you going for?

RECYCLED AND SUSTAINABLE

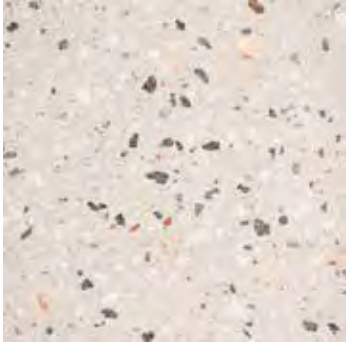

In addition to our standard Terrazzo tiles, we also have a special line that is constantly being developed. These tiles do not have stone but glass grains. This glass is recycled and therefore super sustainable!

It also gives the tile an interesting shimmer and extra depth.
